WILSON REPLY TO STATEMENT NOW AWAITED

With France Out Of Controversy Interest Turns To President.

OFFICIALS AGITATED

Controversy Assumes International Aspect Is Freely Believed.

Washington, Oct. 19.—President Wilson may call upon Senator Harding to name the "spokesmen" of the French people who the Republican candidate stated had approached him and urged that the United States lead the way to an association of nations, it was learned at the White House today.

Washington, Oct. 19.—With France apparently out of the controversy, interest today turned again to the president in the clash between the chief executive and Senator Harding over the Republican presidential candidate's statement that he had been informally approached by spokesmen of the French people asking that America lead the way for an association of nations.

Senator Harding's letter containing the official text of his statement was generally admitted today to be a breach of diplomatic proprieties. It was also admitted that the frame a reply in an effort to show in support of the league of nations.

The president's reply to Senator Harding is now awaited with interest and it is generally predicted here that the chief executive will frame a reply in an effort to show that the French government is firmly in support of the league of nations and does not desire an association of nations.

Agitated Officials
President Wilson's letter, however, continued today to agitate diplomatic and official circles. One high diplomat stated it was well known among the representatives of several European governments at Washington that not only emissaries of France, but of Great Britain had repeatedly consulted Senator Lodge, chairman of the senate foreign relations committee, since the inception of the treaty fight in the senate.

The same diplomat pointed out that Viscount Grey, while British ambassador to Washington, held conferences with Republican members of the foreign relations committee, when the controversy over the league of nations covenant was raging in the senate. Since the defeat of the treaty in the senate, Senator Lodge and other Republican leaders have been in frequent communication with Lord Grey, Paris and other European centers and one Republican senator declared today it was only natural to presume Senator Harding as the titular leader of the Republican party, had been kept well informed as to the attitude of the European powers toward the existing league of nations situation.

London, Oct. 19.—Physicians at Brixton jail infirmary declared this afternoon that they believed Terence MacSwiney, the Sinn Fein hunger striking lord mayor of Cork, was nearing the end. They said that fresh signs of weakness had developed which apparently foreshadowed death.

London, Oct. 19.—A specialist has been called in to assist the Brixton jail infirmary staff treat Lord Mayor Terence MacSwiney of Cork who entered the sixty eighth day of his hunger strike today. In addition to a slight cold MacSwiney has developed scurvy. The specialist asked Mary MacSwiney, a sister, to urge her brother to drink some orange and lime juice, but she replied that it was useless.

FOUR MEMBERS OF TRAIN CREW INJURED WHEN ENGINE AND CARS ARE DERAILED

Columbus, O., Oct. 19.—Four members of the crew of Hocking Valley passenger train No. 36, southbound, were scalded and bruised when the engine and two baggage cars left the track near Powell, Delaware county. The crew, all residents of Columbus, were not seriously hurt. Over 400 passengers, including members of the Republican glee club of Columbus, were on the train returning from the celebration at Marion of "America First" day. Only one passenger was hurt. David M. Robbins, address unknown, was slightly bruised when knocked down by the baggage cars.

SERVES LONG TERM

Charles Buckner, known as "Indian Dick," has the distinction of having spent more years in a California prison than any other man in the world. Buckner arrived in San Francisco after serving 36 years in San Quentin and Folsom penitentiaries for the killing of seven Chinese mine claim jumpers in El Dorado County, Cal. It is said that Buckner purchased a rifle to kill the Chinese. The rifle was guaranteed to shoot straight and when he missed one of his victims he returned to the store and is said to have demanded his money back.

MARION PILGRIMAGES ENDED WITH LAST ADDRESS MONDAY

French Incident Now Considered Closed Book By Harding.

Marion, O., Oct. 19.—Senator Warren G. Harding will spend the closing days of the campaign in Ohio, it was definitely announced at his headquarters here today. The senator will speak up to and including the Saturday before election. Engagements were announced for a night speech in Cleveland, October 27, in Greys armory; at Akron the night of October 28 at the armory; at Cincinnati the night of October 29 at the music hall, and in Columbus the night of October 30 at the fair grounds coliseum.

Marion, O., Oct. 19.—With his front porch campaign definitely behind him, Senator Warren G. Harding today indulged in the most restful period he has had in a month.

The record breaking front porch delegation which the senator played host to yesterday was the last scheduled of the campaign, and from now on pilgrimages will be made to Marion, according to present plans. Senator Harding planned to spend most of today working on speeches which he will deliver Wednesday and Thursday of this week, during what is expected to be his last real campaign trip. The senator will leave Marion early tomorrow for Jackson, Ohio, where he will spend the day at a huge barbecue and burgoon, and go from there to Rochester and Buffalo, N. Y., where he will deliver, Thursday, the last speeches of the campaign outside Ohio.

Senator Harding's schedule for the last days of October have been left vacant so far. It is probable, however, that he will spend them quietly here in Marion, with occasional engagements at Ohio points. The last days of the campaign, so far as the senator is concerned, will be spent in Ohio, according to present plans. At Harding headquarters, it was said that the French incident was a closed book. Senator Harding's reply to President Wilson, saying he had been approached by a spokesman for the sentiment of France instead of the French government was accepted as closing the incident.

COX HOLDS OUT NEW HOPE FOR IRISH PROBLEM

Freedom For Ireland By Voluntary Act Of England Seen.

INTERPRETS ART. 10

Governor Declares League Covenant Will Overcome Difficulty.

En Route With Governor Cox, Worcester, Mass., Oct. 19.—Freedom for Ireland by the voluntary act of Great Britain was the new hope which Governor Cox was holding out to Irish Americans today as he swung into this section of New England, where the Irish American population is probably more numerous than in any other part of the United States.

Developing an entirely new phase of his interpretation of article X of the League of Nations and its relation to the Irish problem, Gov. Cox argued that this provision of the league covenant which regarded by many Irishmen as a kind of watch dog set by Great Britain to keep Ireland in bondage will in reality prove her salvation. For centuries Englishmen have opposed freeing Ireland, Gov. Cox pointed out, because they feared to set up an independent state so near their own shores. The geographical location of Ireland, they said, made her an ideal base for enemy operations.

Article X, the governor argued, is merely the Biblical commandment, "thou shalt not steal." Guaranteeing all nations against external aggression. This guarantee, he contended, removed the fear of attack and enables British statesmen to rid themselves of a very troublesome problem by freeing Ireland.

FINANCIER SUBJECT OF OBSERVANCE BY MENTALITY EXPERTS

Pittsburgh, Oct. 19.—Lakin C. Taylor, financier, promoter and president of the Pittsburgh Plate Steel company, is today undergoing mental observance at St. Francis hospital. Accompanied by counsel, he appeared in common pleas court late yesterday to plead to a charge of conspiracy to defraud and a plea of no defense was made by his attorney who told the court that Taylor is a victim of "financial paranoia" and "thinks only in millions."

Judge John A. Evans ordered Taylor to the hospital for observation and when his condition warrants a commission will legally determine his sanity.

Taylor and W. C. Watkins were indicted for the financing of the steel company after a sensational raid on its offices here several weeks ago. Taylor and his associates were charged by city officials with having sold \$2,000 worth of stock to investors in Pennsylvania, Ohio and West Virginia.

Director of Public Safety Charles B. Prichard charged that the company was over capitalizing a plant at Marietta, O. A federal charge of fraudulent use of the mails is to be heard at a later date. Watkins' hearing will be held soon.

EUROPEAN INDUSTRY CANNOT REVIVE TILL LEAGUE ESTABLISHED

Declaration Made By W. A. Julian, Democratic Candidate.

Marietta, O., Oct. 19.—Until the United States joins the league of nations and insures world peace, European industry cannot be revived and the allies cannot begin payments on their nine billion dollar war debt to the United States, W. A. Julian, Cincinnati, Democratic candidate for United States senator, told a large audience at the auditorium here last night.

"If Europe defaults in her payments," Julian declared, "it will be up to the taxpayers of the country to dig into their own pockets and pay the loss."

He declared that Europe will not be able to buy surplus American products if compelled to continue in the "mad armament race." America's five billion dollar export business with Europe will dwindle away, he said, unless immediate steps are taken to assure general peace and disarmament, with a consequent revival of industry.

COUNTRY CLUB IS NOW INCORPORATED

Incorporation papers for the Xenia Country Club, which have been granted in Columbus, have been returned to this city.

The new club has been incorporated for \$30,000 over half of which is subscribed. A call for at least part of this money will be issued soon so that arrangements can go ahead at once, toward fixing up the club house and the club equipments.

WIFE ASSUMES BLAME FOR QUARREL

Marietta, O., Oct. 19.—"It was all my fault, Judge," Edna Pryor told Judge Thomas in interceding for her husband, Walter Pryor, oil worker, charged with administering a beating which sent her to the hospital with a battered skull, broken arm and numerous cuts and bruises. "I used some bad language toward him and he was drunk."

"You don't mean it was your fault when a strong man would knock down and beat a weak little woman like you?" the judge insisted.

"A man will do anything when he's drinking," she replied.

The court administered a fine of \$200 and four months' suspension in the prison sentence upon the wife's plea for clemency.

The smallest automobile yet seen in New York made its appearance recently when Miss Ula Sharon, a theatrical star, blossomed forth in her new "Custer." The machine is driven by an electric battery and will run ten miles

without recharging. Miss Sharon had lots of fun ducking under the big cars along Broadway. She was almost able to run right through the traffic cop's legs. The photo shows her miniature auto alongside a "big brother."

FINANCIERS ATTACK PROPOSED CHANGE

Proposal To Change Gold Standard Sharply Criticised By Leading Bankers In Session at Washington On Tuesday.

Washington, Oct. 19.—Attacks upon proposals to change the gold standard, warm defense of the government's policy to check inflation of credit, pleas that Americans "cease their spending orgy" and declarations that business, despite the upheavals incident to readjustment, is proceeding upon sound lines, featured addresses of leading financiers at the opening session of the Association convention here today.

Secretary of Agriculture Meredith appealed to the bankers to "measure up to their responsibility" in the present crisis facing the farmers and urged that "you will see to it that, so far as possible, the farmers are properly financed not only to protect them from unwarranted losses but also to stabilize their business and to insure adequate food production in the future."

"I think you fully realize that if the farmer is to continue to produce and to meet the food requirements of the nation he must receive adequate prices for his products," Secretary Meredith said. "The farmer is not the only one who would be adversely affected if he fails to secure a reason-

able return for his efforts. He will suffer of course, if he stops producing, but the banker, the manufacturer the merchant will also suffer."

A. Barton Hepburn of New York sharply attacked all proposals for changes in the existing gold standard, in a speech presenting the conclusions of the currency commission appointed to consider the plea of Prof. Irvin Fisher of Yale for stabilizing the dollar.

"Prof. Fisher's plan would lead to foreign drains upon our gold in any period of crisis, since the plan calls for lightening the gold behind the dollar when prices fall," Hepburn said.

CHURCH WILL GIVE EQUAL RIGHTS TO WOMEN MEMBERS

United Lutheran Convention in East Will Take Step.

Washington, Oct. 19.—The convention of the United Lutheran church of America which opens tonight will declare for equal rights for women in the church as well as in politics.

"The Lutheran church has always taken the lead in liberalism and it is fitting that it should be the first church in the history of Christianity to recognize women on the same basis as men," John F. Zimmerman, of Springfield, Ohio, head of the Lutheran Brotherhood said today.

"We shall take action at our convention granting full suffrage and full voice in church affairs to our women." The convention will be composed entirely of men. The women at a convention of their own held recently in Chicago adopted a resolution asking voice and voting power on the church boards.

"They did not ask for representation on the executive committee, which is the governing body of the church, but we shall grant them that, too," Zimmerman announced.

BIG PROBLEMS WILL BE FACED BY PARLIAMENT

Gigantic Questions Before Body As Session Is Begun.

SITUATION IS ACUTE

Coal Strike and Irish Question Paramount Issues In Empire.

London, Oct. 19.—British parliament re-assembled today after a nine weeks holiday for a session that promises to be one of one importance. Not since the "war session" in 1914 have questions of such gigantic importance confronted the house of commons. The parliamentary situation was made more acute by the great unemployment demonstration in Downing street when more than 100 persons were wounded in fighting with the police.

Premier Lloyd George promised a deputation from the army of unemployed to make a statement suggesting relief measures in commons this afternoon.

In addition to unemployment two other domestic questions of staggering importance call for parliamentary action. There are:

1.—The national coal strike, which is stagnating industry and has involved more than 1,500,000 men and women in voluntary or enforced idleness.

2.—The Irish situation, which is more menacing than at any other time in the country's history. Actual war conditions prevail in Ireland and the temper of the Sinn Feiners has been further inflamed by the declaration of the premier that the government will not grant dominion home rule and the death of Michael Fitzgerald, one of the Sinn Fein hunger strikers in the Cork jail.

Leaders of the labor element in the house of commons threatened to move an immediate adjournment in order to bring about open debate on the labor situation.

The political element which has entered the labor troubles, brings acute new menace to the problem of industrial unrest confronting the lawmakers.

Britain's gigantic domestic problems have overshadowed, for the time being, the international issues.

Since parliament adjourned the following important developments have taken place:

1.—Premier Lloyd George announced that the government will not grant dominion freedom to Ireland and the

ISSUE CERTIFICATES FOR RAIL EQUIPMENT

New York, Oct. 19.—The National Railway Service Corporation announced an issue of \$60,000,000 of trust certificates for the purpose of equipment to be supplied to railroads.

This corporation was recently organized by the national Association of Owners of Railway Securities, under an amendment to the transportation act, suggested by the last Congress.

Under this amendment the interstate commerce commission is authorized to make loans from the \$300,000,000 fund provided by Congress to the service corporation to supply such railroad equipment as may be approved by the commission.

The certificates now to be issued are in two series not to exceed \$300,000 each and maturing in 15 years. Seven railroads or systems are thus far included in these series, which provide two distinct methods under which the roads may secure equipment.

One method is known as the condition sale basis under which a railroad may purchase equipment in 30 semi-annual payments. The other is the lease basis, under which a carrier may lease equipment from the services corporation in 30 semi-annual rental payments.

POLES BEGIN NEW OFFENSIVE

The armistice on the Russo-Polish battle front was to have gone into effect at midnight last night, according to the peace protocol signed by the Russo-Polish envoys at Riga last week. Latest advices from Moscow reported that the Poles have begun a new offensive over a front of 60 miles and that the Russians were retreating to new positions under the blows of the Polish troops. The Russian communique which reported this fighting referred to military operations on Saturday night the prison sentence upon the

BIG PROBLEMS WILL BE FACED BY BRITISH

(Continued From Page One.)

Sinn Fein declared that a state of war existed in Ireland.

2—The military police in Ireland began a systematic series of reprisal attacks, destroying whole towns.

3—More than 1,000,000 miners went on strike and the strike threatens to spread to the railways and docks.

4—More than 100,000 unemployed men and women have united in organized agitations against the government.

5—Trade negotiations between Great Britain and Soviet Russia were suspended.

6—Soviet Russia and Poland signed peace.

On August 16, after days of tense negotiations, parliament adjourned leaving the speakership empowered to recall the members on 48 hours' notice if the Russo-Polish war demand British intervention. Since then the war clouds have been taken by home problems of magnitude. The anxiety of the authorities has been increased by the sympathy for bolshevism evinced in certain labor quarters and the fact that the unemployed carried red flags when they marched on the premier's official residence yesterday.

Although the dockets of the house are filled with many important foreign problems, one of the first questions to be tackled is Ireland. The home rule bill will be the first measure called up for debate.

There are indications that a strong attempt would be made to ram through this bill virtually as written, despite the counter attacks of the opposition. The only amendments that the cabinet has tolerated so far enlarge the scope of Irish control on financial matters. It is expected that Sir Edward Carson, leader of the Ulster Unionists, will lead the forces opposing anything but the most conservative home rule for Ireland. He will be opposed by H. H. Asquith, former premier, who has already indicated that he will call for a parliamentary investigation of police and soldier rule in Ireland.

Scotch Folks Prevent Hay Fever With Wonderful Catarrh Prescription

Prominent doctors in Scotland believe they have discovered a simple way to prevent Hay Fever and at the same time put an end to colds and clear up catarrhal discharges.

The new discovery is a liquid known as Haelanol and is so inexpensive that it is generally used by all classes.

Every day for a week or two before the expected attack, pour a few drops on a clean handkerchief and hold it to your nostrils. Then breathe deeply of the pleasant, yet strongly antiseptic, air thus created. It is so acutely penetrating that a few breaths will quickly soothe and heal the delicate, sensitive membrane.

American pharmacists are now dispensing Haelanol in small vials, and Sohn's Drug Store, who sells lots of both sizes at 50 cents and \$1.25 per bottle, says it has proved very successful. The Haelanol Company, Inc., Rochester, N. Y.

CENTRAL HIGH WILL MEET ALEXANDRIA

Central High School football team doled following the drubbing handed them by Troy High here last week will meet West Alexandria High at Dadds Field, this city, Friday afternoon.

The blue and white footballers, have had much of the conceit taken out of them by the last two defeats, they have suffered at the hands of Wilmington and Troy, and it is thought that the team will come nearer this Friday to putting up the class of ball that won for them in the Hillsboro and Greenfield clashes.

In playing West Alexandria, the locals have an old score to settle. Last year, at the far end of a bag season, West Alexandria was booked here the day before the Washington C. H. game. The contest was rated as more or less of a consolation game, as a victory over the Alexandria pigskinners would considerably help the showing of the team for that season. However, the visitors turned the tables on the locals, defeating them in an exceptionally hard game, and making it impossible for the locals to fill their engagement with Washington C. H. on the following day.

REPRESENTS COUNTY IN MARION PARADE

"I sympathize with Atlas," said Attorney J. A. Finney, prominent Republican, on returning from Marion, Ohio, Monday, where he participated in the convulse paying homage to Senator Harding.

Mr. Finney explained that his sudden rush of sympathy for the chap who has been holding up the world for the centuries, was due to the fact that he had a similar position Monday, when he upheld the honor of Greene County Republicans, by being the only delegate in the Marion parade.

"There were 900 Montgomery county banners in front of me and a big delegation from Warren county and Iberia back of me, while I had to walk by myself carrying a banner for Greene county."

Mr. Finney added that he received the loudest applause from the watching throngs of any of the thousands of marchers.

WHY HARDING'S PROGRAM FOR PEACE IS ACCEPTED BY PRACTICAL PEOPLE.

It is perfectly logical for the men who have urged some form of international agreement to promote peace, to find in Senator Harding, rather than in Governor Cox, the most hopeful leadership toward the end they have in view.

President Wilson sought to impose on the country an organization for which the world was not ready. The United States simply cannot afford to pledge its resources to the support of an international program made in Europe, to further European rivalries and ambitions. Such a pledge is the essence of article 10, which Mr. Wilson has called "the heart of the league."

The country will not accept this surrender of sovereignty. This has been shown by the vote of the senate, including more than twenty Democratic senators, who asked for a reservation on this point. Yet Governor Cox has accepted the Wilson league. What the President promised Cox will perform, the governor has said in a formal announcement.

In contrast to this attitude of stubbornness, which could produce only a prolongation of the existing deadlock, is the promise of Senator Harding to call a conference of leaders of thought of both parties, including, of course, senators, to work out an international program which would appeal to the country as one it could get behind.

Mr. Harding's own influence as President would be, as he has said, to include all that is good and to cut out all that is bad from the league covenant and from The Hague tribunal.

It is not surprising that this reasonable program is accepted by practical men interested in promoting the cause of international peace as offering far more hope than the rigid impracticability of the administration, as upheld by Mr. Cox.

PRESIDENT WILSON SCORED BY BISHOP ANDERSON OF CINCINNATI.

Senator Harding reached Marion Sabbath morning from his trip into the South, tired, but pleased with the receptions given to him.

Sunday night he and Mrs. Harding attended services at the Epworth Methodist Episcopal Church, where Rev. William F. Anderson, of Cincinnati, Methodist Bishop for Ohio and Kentucky, preached.

Bishop Anderson spoke as the result of observations on five trips to Europe since the armistice and of long sojourns there during the World War. He placed squarely upon the President's shoulders the failure for ratification, because of the President's insistence that he could accept no essential reservations.

Declaring that the President should have accepted the Senate's reservations, Bishop Anderson said:

"That is what ought to have happened, and would have happened if the President had cared more about the League of Nations than he cared about having his own particular way. His natural and highly cultivated egotism stood in the way of that piece of constructive statesmanship."

Bishop Anderson said he had been in favor of the league from the beginning, and in the early stages, before he understood the question, had favored ratification without reservations.

He said: "The reason why we failed at the peace conference was that the strength and wisdom of American statesmanship were not there. The American people ought to know the facts. I had a rather unusual opportunity for gathering them, and feel a personal responsibility to give them to those who hear me."

IDLE TALK.

I hear poor hicks talk politics from dawn until the gloaming, and, calm and cool, I groom my mule, her fetlocks currying. Oh, I might talk around the block with every passing neighbor, I might devote to Harding's goat the time I spend in labor, but I'm inclined to keep in mind the fact that winter's coming, when storms will whoop around my coop, and blizzards will be humming. I do my chores while all outdoors is full of idle yawping, for still the hicks talk politics, and keep the welkin popping. I thresh my beans and other greens, my prune trees wisely guarding; my boosts or knocks won't hinder Cox, or put a crimp in Harding. Whoever wins you'll see my bins well filled with spuds and carrots; my crops I raise while other jays talk bunk like locoed parrots. Sometimes at night, by candle light, when all my work is ended, I spiel a while of campaign guile, in language high and splendid. And people list in awe, I wist, as though to some lawgiver, to plans I've planned, this weary land from bondage to deliver. But in the day I toil away, the lean earth amply iarding, and heave no rocks at Jimmie Cox, and heave no bricks at Harding.

EAST END NEWS

"SLANDEROUS" SAYS JULIAN OF RECENT G. O. P. STATEMENT

Columbus, Ohio, Oct. 18.—"Slandorous" is the estimate placed by W. A. Julian, Cincinnati, Democratic candidate for U. S. Senator, upon a statement recently issued at Republican state headquarters attacking Julian's labor record as a shoe manufacturer.

"The facts are, we never had a strike, or enjoined organized labor, but a small band of rebels against union labor brought on a strike in one department and we in unison with the boot and shoe workers branch of the American Federation, put them out of the factory and replaced them with regular union men," declared Julian.

Is It Yours

This is the Birthday of MARTHA JEFFERSON

October 19, 1748

Martha Jefferson was born as Martha Wayles and became the wife of Thomas Jefferson before he was elected President. She was born in Charles City, Virginia, in 1748, and was brought up in the rather enviable fashion of wealthy girls of her day. She lived on a handsome estate in charge of a devoted nurse. She grew more and more beautiful as she matured and became the belle of her part of the country. When she was very young she married, but shortly after the wedding her husband died, making her a widow at the age of 19.

Already fairly wealthy, she inherited a great deal of property from her husband. Young, beautiful, rich, with the freedom then allowed only a married woman, she was the most envied person in Virginia. She had auburn hair and large eyes, a beautifully white skin, and almost perfect features. She sang well and danced well, she was an affectionate and a brilliant conversationalist. Thomas Jefferson, a rising young lawyer, could not help but fall in love with her. They were married when she was 23.

He gave her always the most romantic devotion. But she had never been very strong and died when she was 34. Jefferson was so depressed by her death that he intended to retire for life. He was, however, persuaded to take up his public duties again and was afterwards elected President.

HEALTHY, HAPPY WIFE.

is the greatest inspiration a man can have and the life of the family, yet how many homes in this fair land are blighted by the ill health of wife and mother!

It may be backaches, headaches, the tortures of a displacement, or some ailment peculiar to her sex which makes life a burden. Every woman in this condition should rely upon Lydia E. Pinkham's Vegetable compound, made from roots and herbs, to restore her to health and happiness.

OHIO STATE ALUMNI OF GREENE COUNTY HEAR STADIUM TALKS

Before a crowd of about 25 Greene County graduates and former students of the Ohio State University, assembled in the banquet hall of the Chamber of Commerce Monday evening, the project of the Ohio Stadium, the proposed million dollar athletic field for the University was explained by four members of the University Stadium committee, who appeared in Xenia at the request of the local committee.

Among the speakers present was Charles W. Harley, former football star of the University, who in a brief talk touched on some of the phases of college football, and urged the alumni to renew their acquaintance with the University by attending football games.

Preceding Harley, John Creps, present cheer leader of the University, instilled some of the old time spirit into the crowd by reviving a few of the yells and cheers, pointing out in the meantime that the Stadium was an alumni affair and designed for their use as much as for the student body.

Tracing the growth of university athletics from the early days up to the present time, Prof. Thomas E. French, of the department of engineering drawing and the originator of the stadium idea, pointed out the needs of the university for better athletic equipment.

"Physical education," he said "has become a recognized branch of university work. A sound mind belongs in a sound body, and modern teaching is toward competitive games not the old meaningless dumbbell exercises. For this reason the Stadium which will provide facilities for this goal has become a necessity to the University."

J. L. Morrell, secretary of the alumni association, explained the organization, of and terms of the financial campaign which has for its object

the raising of \$1,000,000 for the construction of the stadium. He called attention to the fact that the project was to be a gift of the alumni and for that reason it was desired to include as many former students in the list of givers as possible. The donations, he said would range from \$5,000 down to \$100 and the names of the donors would be placed on bronze tablets in proportion to their gifts.

Following the meeting an Ohio State University Association was formed by those present. Paul B. Yockey was elected president and E. S. Myers, secretary and treasurer. Dues were placed at \$1 a year.

Preceding the speeches a light supper was served by the wives of the alumni and an informal reception was tendered the visitors.

MOVEMENTS ON FOOT TO ESTABLISH ROTARY AND KIWANIS CLUBS

The establishment of both a Rotary Club and a Kiwanis Club in this city, are the result of movements now on foot, that it is expected will soon come to the attention of Xenia business and professional men.

The movement for the organization of a Rotary Club was given birth in this city last spring when several business men discussed the organization of a local branch with Russell F. Greiner, of Kansas City, former International President of Rotary.

The movement has been kept alive here and some definite step in regard

to the establishment of a Rotary Club here is expected within the near future.

At a meeting of state officers of the Kiwanis Club held at Cleveland last Saturday plans for an elaborate extension campaign were announced by Governor Albert Miller of Toledo, who announced that organizations will be established in 15 cities including Xenia.

Announcement of committee appointment was also made at that time, and James E. Grube, city editor of the Toledo Times and a son of Dr. and Mrs. R. H. Grube of this city was appointed chairman of the state committee on publicity.

Both the Rotary and Kiwanis Clubs are organized along parallel lines only one member from each profession in any club being eligible to membership. The Rotary Club however is the older of the two organizations.

BRUNSWICK Method of Reproduction

The Ultona, an exclusive all-record reproducer, to be obtained only on The Brunswick. It plays all makes of records at their best. Not an attachment, but a built-in part.

The Brunswick Tone Amplifier, made entirely of moulded wood, like a fine violin. Gives added richness and fullness to tone. Does away with metallic sounds.

Two exclusive features You can't buy elsewhere

THE reason so many critical music lovers prefer The Brunswick is not hard to find. It is all due to the Brunswick Method of Reproduction, two features of which are pictured above.

Tone is the chief reason for so many friends for Brunswick. And tone depends largely upon the reproducer and the tone amplifier.

In both of these features Brunswick has gone far in advance. The Ultona plays all records, not confining you to one make. And it plays each exactly as intended, with the proper diaphragm, the proper needle. Best of all, it is not a hastily contrived makeshift, but a basic invention.

The Brunswick Tone Amplifier is built entirely of wood. Not merely the part you see, but the throat between the reproducer and amplifier. The usual way is to make this throat of cast metal, a faulty way that brings metallic sounds.

You'll appreciate how far in advance The Brunswick is; you'll admire its superior tone. The proof of the pudding is—Hearing. All we ask you to do is to investigate The Brunswick with your own ears.

HARDING DECLARES BALLOTING COMES 2ND TO CITIZENSHIP

Marion, Ohio, October 19.—Not since notification day, July 22, have there been such immense crowds in Marion as yesterday, when Senator Warren G. Harding, Republican nominee for the presidency, in the climax of his front-porch campaign, told young men and women who will vote for the first time November 2, that the obligations of citizenship carries with it more than mere voting, "even when voting is undertaken with full conscience and great wisdom."

"The obligations of citizenship in a nation such as ours are greater than the obligations of citizenship in any nation in the world," Senator Harding said.

"They include all those duties which knit us together into a nation of ideas; they include right living in our relations to ourselves, to our families and to our homes, to the communities in which we live and to our national welfare."

13 Eggs A Day From 17 Young Pullets

Mrs. Niles Starts 6-months Old Pullets Laying. Tells How.

"Early in November, I bought a package of Don Sung and started giving it to 17 May pullets. In the first 30 days they laid 138 lovely eggs. All through December I got 11 to 13 eggs a day."—Mrs. E. S. Niles, R. F. D. 2, Lucerne, Ind.

Mrs. Niles found how to start young pullets laying and keep them laying all winter. The same method helps hens through the moult, and starts them laying. You can test this at our risk.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be cheerfully refunded.

Constant Reader—You should use a brunette powder. Purchase it at a reliable place, where the saleswoman can direct you in the choice. You could not test its quality; buy the very best.

A Young Mrs.—It would be quite proper for you to bob your hair and it will help you build it up again, as the glands will have less work to do in keeping the hair supplied with secretions, when the hair is shortened. If you do cut it, it would be sensible to keep it bobbed until your health had been restored; as the hair cannot recover while you have the uric poisoning. But keep up your head massage as it is helping the scalp all the time. If you would care for a good tonic to use with the massage, send an addressed, stamped envelope, and I will be pleased to send you a formula for it.

Stupid—Your best colors will be those that match the color of your eyes or that of your hair. Since your type is so light, you should strengthen it; for instance, the pale blonde hair needs shades of brown to give it character; also, with the eyes, the deeper the shades of blue, the more becoming the color will be.

This famous old cough medicine is just as good for children as for adults. It checks coughs, colds, croup, bronchial coughs, and stops that 'tickling' throat that keeps one coughing at night. It contains no opiates nor habit-forming drugs. Prompt and sure in action. Sayre & Hemphill."

HE FEELS TEN YEARS YOUNGER

Any man or woman suffering from lame back, headache, stiff joints, sore muscles, rheumatic pains or any other symptom of kidney or bladder trouble will be interested in this letter from H. Byrd, 925 Garden St., Hoboken, N. J. "I could not bend down for some years, as I can now. These dizzy spells while driving my car, and ran it into a telephone pole, badly wrecking the car. A friend recommended Mayr's Wonderful Remedy for my trouble. Since taking the first dose I have steadily improved, and feel better now than ever in my life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sayre & Hemphill and druggists everywhere.
